Special Price List
For Fall 1916 and Spring 1917

Southern Oregon Nursery

Yoncalla, Oregon

A copy of certificate of inspection will accompany each shipment. No San Jose scale or pear blight has ever been found in our nursery

INTRODUCTORY

WE TAKE PLEASURE in presenting to our patrons, and all persons interested in horticulture, our new price list which, we trust, may be a help to many orchardists in selecting the right varieties for their orchards, and in getting them started right. The financial success of an orchard depends, principally, upon the selection of the right varieties according to soil, climate, location and market, and in getting absolutely dependable nursery stock.

Our stock consists of all the commercial varieties of apples, pears, peaches, cherries, plums, prunes, grapes, berries, shade trees, shrubs and flowers. Our trees planted in thousands of orchards have proved their superior value.

| Distance | Square Method | Triangle Method |
|-----------------------------|---------------|-----------------|
| 1 foot apart each way..... | 43,560 | 50,300 |
| 2 feet apart each way..... | 10,890 | 12,575 |
| 3 feet apart each way..... | 4,840 | 5,899 |
| 4 feet apart each way..... | 2,722 | 3,143 |
| 5 feet apart each way..... | 1,742 | 2,011 |
| 6 feet apart each way..... | 1,210 | 1,397 |
| 7 feet apart each way..... | 888 | 1,035 |
| 8 feet apart each way..... | 680 | 785 |
| 9 feet apart each way..... | 537 | 620 |
| 10 feet apart each way..... | 435 | 502 |
| 12 feet apart each way..... | 302 | 348 |
| 14 feet apart each way..... | 222 | 256 |
| 15 feet apart each way..... | 193 | 222 |
| 16 feet apart each way..... | 170 | 191 |
| 18 feet apart each way..... | 134 | 154 |
| 20 feet apart each way..... | 109 | 125 |
| 25 feet apart each way..... | 69 | 79 |
| 30 feet apart each way..... | 48 | 55 |
| 35 feet apart each way..... | 35 | 40 |
| 40 feet apart each way..... | 27 | 31 |

Rule, Square Method—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to the acre.

Rule, Equilateral Triangle Method—Divide the number required to the acre, "square method," by the decimal .866. The quotient will be the number of plants or trees to the acre by this method.

Distances for Planting—The hexagonal or triangular method of planting trees gives 15 per cent more trees to the acre than the regular or square method. The usual custom is as follows:

| | Distance for Planting | Square | Triangular |
|-------------------------------------------|-----------------------|-----------|------------|
| Apples | 30 feet | 50 trees | 56 trees |
| Pears and Cherries..... | 25 feet | 70 trees | 80 trees |
| Prunes, Peaches, Apricots..... | 20 feet | 110 trees | 125 trees |
| Grapes, Black, Logan and Raspberries..... | 4 to 6x7 to 9 | 2 | 1,100 |
| Currants and Gooseberries..... | 4 to 5x5 to 7 | 1,800 | |
| Strawberries, field culture..... | 1½x3 | | 10,000 |

IMPORTANT PLEASE READ CAREFULLY

SEASON—About October 1st to April 10th.

TERMS—Cash or satisfactory reference before shipping. Your personal check accepted.

PARCEL POST—We will be glad to give cost of mailing on any order sent, when requested. Or you may get the cost from your postmaster by adding the weight of trees, etc.

| | |
|----------------------------------------------------|---------------|
| Ten 1-year-old, 4 to 6 ft. fruit trees, baled..... | 8 pounds |
| Ten 2-year-old, 4 to 6 ft. fruit trees, baled..... | 14 pounds |
| Ten 1-year-old, 3 to 4 ft. fruit trees, baled..... | 5 pounds |
| Ten 1-year-old, 2 to 3 ft. fruit trees, baled..... | 3 to 4 pounds |

GUARANTEE—Every precaution taken in packing and labeling to avoid mistakes and are ready to replace any stock that proves untrue or refund money paid for same. It is agreed between the purchaser and ourselves that we will not be held liable for more than the amount paid for the stock.

MISTAKES—We thoroly realize what it means to buy fruit trees, care for them a number of years and find they are worthless, or something you do not want. Our endeavor is to eliminate mistakes of this sort.

STRAWBERRIES

- 100 for.....75c 1000 for.....\$4.50 Special price on larger lots
- Clarks Seedling—The berry that has made Hood River famous; berry large, heavy cropper, especially adapted to dry soil.
- Everbearing—A fine, large berry; continuous bearer.
- Goodell—A large, dark red to center berry; heavy crop, very prolific; the choice of canneries, and a favorite with us.
- Gold Dollar—Very early; large, dark red to center; foliage heavy, large and spreading, which protects blossoms from frost.
- Excelsior—Very early, of good size, bright red, cone shaped, ripens evenly.
- Wilson—Too well known to need description.
- Maagoon—A good shipping and canning berry; about ten days later than Clark Seedling.
- Marshall—Berries very large, rightly flavored; with high culture the strong, healthy plants produce great crops.
- Klondike—An excellent berry for the home garden.
- Ozark—Very early; rough, but of fine flavor, and will stand more ill usage than most any other berry.
- William Belt—Very large, bright color, fine flavor, but requires rich, heavy soil for best results.

We can supply many other varieties, but advise selection from the above list, where you will find one or more suited to your needs.

ROSES**STANDARD VARIETIES**

| | | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|----------------|--------|
| Delivered prepaid: Each..... | 35c | Per dozen..... | \$3.00 |
| Alfred Colombe—Bright red, very large, full and globular; free blooming and fragrant; a grand rose. | | | |
| American Beauty—The well known red forcing rose. | | | |
| Anne de Diesbach—The famous "Glory of Paris." Bright deep clear pink, of largest size; fine bud and open flower. | | | |
| Avoca—(H. T.) Deep scarlet crimson flowers of perfect form; very fragrant. | | | |
| Betty—(H. T.) Beautiful coppery rose color, overspread with golden yellow. Deliciously fragrant; very large, fairly full and of glorious form. Superb decorative variety for the garden. | | | |
| Bessie Brown—(H. T.) Creamy white; large full and of very fine form. An exhibition rose. | | | |
| Baron de Bonstettin—Velvety blackish crimson; large and full. | | | |
| Baroness Rothschild—(H. P.) Flowers of immense size; color bright rosy pink. | | | |
| Black Prince—Deep blackish crimson; large, full and globular; very free flowering. | | | |
| Boul de Niede, or Ball of Snow—Pure white, flushed rose; very floriferous. | | | |
| Captain Christy—Delicate peachblow pink, center richer in color; large and full. Abroad this rose is classed with the Hybrid Teas. | | | |
| Captain Hayward—This rose ranks right up with Frau Karl Druschki, indeed many call it the red Druschki. Of the largest size. Color deep glowing crimson, very bright and rich. We know of no red hybrid that in any way compares with it. | | | |
| Clio—Flesh color shaded in the center to rosy-peach Large, fine, globular form; free bloomer and distinct. | | | |

ROSES—Continued

Charles Lefebvre—Fine brilliant velvety crimson; very large and double and of superb form; must take rank as one of the best of the Hybrid Perpetuals.

Conrad F. Meyer—(Rug.) Beautiful silvery pink, of grand form and delicious fragrance, hardy in any climate, its handsome foliage makes it most valuable for a flowering hedge.

Clara Watson—Pearly-white center tinted with pale rosy-peach; a free and continuous bloomer of good habit.

Dorothy Page Roberts—(H. T.) Coppery pink, suffused with apricot yellow, very free and perpetual, a delightful garden rose.

Dean Hole—(H. T.) Beautiful silvery carmine, shaded bright golden pink; grand flowers of great substance; perfect in form; vigorous, free branching habit; continuous bloomer; one of the best exhibition roses. Gold medal N. R. S.

Due de Rohan—Brilliant carmine, large and full; one of the very best Hybrids we have.

Duke of Edinburgh (W. Paul 1868)—Very bright vermillion; extra large and full; a distinct and splendid variety. Should be in everyone's garden.

Eugene Furst—In this rose we have one of the most distinct and valuable additions to our garden roses that has been made in many years. It is large and full, fine form. Color deep red shaded crimson. Profuse bloomer. A most charming and superbly grand rose.

Etoile de Lyon—(T.) Blooms freely, and every flower is a gem, equaling the Marechal Neil in size. Sweet scented; color, rich golden yellow.

Etoile de France (1905)—The gold medal rose of France, and claimed by the raiser, J. Pernet Ducher, of Lyons, France, to be the finest rose he has ever sent out. We believe, with him, that it has no superior. The flowers are very large and borne on good long, stiff stems; colors a lovely shade of clear, red-crimson velvet; very fragrant and keeps well. In England, where it has been tried extensively during the past season, it has caused quite a sensation. Our opinion is that it will become as much of a favorite as La France. Keep your eye on this variety, as it is a stayer and altogether a grand variety. It is a good grower, a free bloomer, fine rich color, deliciously fragrant.

Earl of Dufferin—Rich velvety crimson shaded with dark maroon. Very large, full and fine form.

Florence Pemberton—(H. T.) Creamy white, suffused pink. Flowers very large and full, of perfect form and wonderful substance.

Franz Deegan—(H. T.) This beautiful yellow Hybrid Tea is a fine grower, having dark, leathery foliage and the good habit of throwing up numerous heavy canes, each one crowned by a glorious flower of large size.

Fisher-Holmes—(H. P.) Very deep crimson scarlet; well worth a place in any collection.

Gloire Lyonnaise—(H. P.) Color, chamois yellow, deepest at the center, passing to creamy white; large, full, sweet and very distinct.

ROSES—Continued

- Frau Karl Druschki—(H. P.) The white American Beauty. Makes splendid buds and immense flowers; perfectly double and delightfully fragrant; large, thick petals; bright, shining green leaves, elegantly veined; a healthy, vigorous grower, and a constant and abundant bloomer.
- General Jacqueminot—(H. P.) Bright, shining crimson; very rich and velvety.
- General McArthur—(H. T.) Dazzling crimson scarlet; a grand American rose of ideal form, delicious perfume and magnificent foliage. Blooms continuously in great profusion; the grandest red rose for garden or cutting.
- George C. Waud—(H. T.) Vermillion red; highly perfumed.
- Grace Darling—(T.) Large, full, creamy white, shaded peach; sweet scented; a superb rose.
- Grus an Teplitz, or Virginia R. Coxe—(H. T.) Color, fiery crimson, with a dark velvety sheen, very fragrant. The freest blooming rose.
- Killarney—(H. T.) The new Irish beauty. Color, an exquisite shade of deep shell-pink lightened with silvery pink.
- Hugh Dickson—(H. P.) Glowing crimson shaded scarlet; large, full, perfectly formed, delightful perfume, strong grower, perpetual bloomer (should be cut back freely). After careful comparative tests, we believe Hugh Dickson is the best hardy red garden rose to date.
- Joseph Hill—(H. T.) Salmon pink shaded yellow. Outside petals yellow suffused copper; a large, free blooming rose of elegant form.
- J. B. Clark—(H. T.) One of the finest of new roses. Its glorious flowers are intense scarlet shaded blackish crimson, of giant size, finely formed and fragrant; growth vigorous and upright.
- La France—(H. T.) Both flowers and buds are of grand size; color, a silvery rose, changing to pink. A general favorite. Sweetest of all roses.
- La Detroit—A beautiful shell-pink shading in the center to a soft rose pink. Reverse of outer petals creamy-flesh tint; strong healthy grower; prolific bloomer; delightful tea fragrance.
- Lady Ashtown—(H. T.) One of the finest pinks of a rich, deep, silvery tone; flowers large, perfect form; free blooming; vigorous.
- Kaiserine Augusta Victoria—Pure white, with shadings of primrose yellow, deeper in the center; a distinct and very beautiful variety.
- Louis Van Houtte—(Lacharme, 1869) Deep crimson shaded maroon, most vivid and distinct; large, full, and fine form.
- Lady Ursula—Color a most beautiful shade of flesh pink, of great substance and good form. A grand, robust grower, producing its round, full blooms in wonderful profusion.
- Lady Hillingdon—Long slender buds of intense deep golden yellow; borne on long willowy stems in the greatest profusion. Holds its color without fading to the last. A most valuable addition to the list of yellow roses.

ROSES—Continued

Mildred Grant—(H. P.) Delicate pale pink, shading to silvery white in center; grand giant variety of rare beauty; perfectly formed, pointed buds; full flowers of fine substance.

Mrs. David McKee—(H. T.) Creamy yellow, large, full, freely and continuously produced. Best of its color.

Mrs. David Jardine—(H. T.) Delightful shade of bright, rosy pink, shading in outer petals to salmon pink; large, highly perfumed.

Madame Phillippe Rivoire—(H. T.) Beautiful apricot yellow and Nankeen yellow center; reverse of petals carmine; large, full and globular.

Mad. Segond Webber—(H. T.) Pure rosy salmon, vivid center, large, full and perfectly formed flower, flowering freely and continuously on stiff erect stems.

Mrs. A. R. Waddell—(H. T.) A strong grower, foliage highly ornamental. Large, long pointed buds of a bright, rosy scarlet; a finely formed flower of a rich apricot or salmon color.

Mrs. John Laing—(H. P.) Very free flowering; color, a soft, delicate pink, with satiny tinge.

Mable Morrison—(H. P.) Of purest white; velvety in appearance; petals thick and shell-shaped; very double and rounded.

Margaret Dickson—(H. P.) Magnificent form; white, with pale flesh center; petals very large, well-shaped, and of great substance; fragrant.

Mrs. R. G. Sharman Crawford—(H. P.) Lovely deep rose pink, outer petals shaded pale flesh, base white, a new and unique shade. Large perfect flowers, free blooming. A grand autumn rose.

Marie Van Houtte—(T.) Of a fine, faultless straw yellow color; outer petals outlined and washed with a bright rosy carmine.

Maman Cochet—The famous "Pink Cochet." Light pink shaded with salmon yellow, outer petals splashed with bright rose; extremely large and full. Vigorous and free.

Madame Caroline Testout—(H. T.) A grand rose of the La France type, but with flowers larger and finer. Color, bright satiny pink; very fragrant and free in bloom. The official "Carnival Rose."

Marshall P. Wilder—A great many persons will not give up to the contention that this is the ne plus ultra in red roses. It certainly is a hummer and hard to beat. Deep, rich glowing red.

Meteor—Dark velvety-crimson. Shaded maroon. A grand garden rose.

Papa Gontier—(T.) Large and semi-double; a vivid cherry red color, shaded yellow, reverse side of petals crimson.

Perle des Jardins—(T.) A clear, golden yellow, an indescribably rich and beautiful shade.

Paul Neyron—(H. P.) Deep, shining rose, double and handsomely formed; blooms freely; the largest variety in existence.

Prince Camille de Rohan—(H. P.) Very dark, rich, velvety crimson, passing to intense maroon, shaded black; regarded as the best of its color.

ROSES—Continued

Pres. W. H. Taft—(H. T.) Deep salmon pink, large full flowers, free blooming.

Prince de Bulgaire—(H. T.) Very vigorous grower with large, bright green foliage; beautiful form of bud, flower very large and full. The outer petals are extremely large, of superb rosy flesh color; center of flower bright red, very fine and free.

Pres. W. R. Smith—(T.) (Maidenblush) A superb new rose of American origin, producing elegantly shaped buds and open flowers of much beauty. Of exquisite silvery pink color and sweetly perfumed.

Rainbow—(H. T.) Buds and flowers of large size; color a beautiful shade of deep pink, distinctly striped and mottled with brilliant crimson, elegantly shaded and toned with rich amber.

Richmond—(H. T.) The most vivid of ever-blooming red roses; buds and flowers of the most perfect and desirable form. The best of its color.

Souv. de President Carnot—(H. T.) Lovely shell-pink, delicately tinted with golden fawn on rich creamy white. Superb for bedding in open ground. Makes splendid buds for summer cutting.

Safrano—(T.) Bright apricot yellow, tinged orange and fawn.

Viscountess Folkestone—Flowers borne on strong stems, with thick foliage; color, delicately tinted flesh, almost white, with beautiful satin finish.

White La France—(H. T.) This magnificent rose is a pure white La France, having just a breath of rose-tinted blush.

White Maman Cochet—(T.) White, grand substance, immense size, exquisitely fragrant and a free bloomer; buds long and pointed.

Ulrich Brunner—(H. P.) A magnificent rose, extra large, bold flowers, full and globular; petals large and of good substance; color, rich, glowing crimson, elegantly flamed with scarlet.

Vick's Caprice—Large, full. Color bright satiny-pink, striped white and carmine; a very distinct rose.

CLIMBING ROSES

Each 35c

Dorothy Perkins—Polyanthus type; color, a beautiful bright shell pink; flowers large, very double; petals prettily crinkled; blooms in large clusters of 30 to 40; a splendid keeper.

Climbing Belle Siebrecht—(C. H. T.) Flowers identical with bush type; vigorous climber; hardy.

Climbing Kaiserine (Mrs. Robert Peary)—Flowers fine, ivory white, of heavy texture, and large size.

Climbing La France—Identical with the well known La France; vigorous climber.

Climbing Lady Ashtown—Strong, vigorous climbing sort of this well known valuable rose.

Climbing Madame Caroline Testout—Covered during the whole season with immense globular flowers of the same beautiful shade of pink as seen in the bush sort.

ROSES—Continued

Climbing Meteor—Rapid grower; rich, dark velvety crimson flowers.

Climbing Papa Gontier—(T.) A “Native Sport” from the favorite bush “Papa Gontier.”

Climbing White Maman Cochet—The introducer describes this as identical with the bush type: vigorous free bloomer.

Crimson Rambler—(C. P.) Bright, crimson flowers produced in large clusters of pyramidal form; grand variety for pillars and arches and to train over porches; also makes a fine attractive hedge. Awarded gold medal, N. R. S. A rose for the masses.

Marechal Neil—(C. T.) This is the old standby yellow rose in the South, where it is hardy; indeed it will bloom in any garden, but is not hardy in the north. Immense deep golden yellow flowers with the deepest, richest tea fragrance of all roses. Anywhere in the North this rose will bloom in the garden throughout the summer.

Reve d'Or (Climbing Safrano)—Color, apricot yellow, with orange and fawn tints; petals of superb and delicate texture.

Pillar of Gold, or E. Veyrat Hermanos—Bernaix, 1895) (C. T.) The blooms are double to the center of the largest size, and come in immense bouquets of from five to ten blooms on a single branch, and the effect throughout the blooming season is a perfect sheet of color. The color, ruby-red suffused with golden-yellow, is a happy combination.

Silver Moon—A magnificent white climber, cross of Wichuriana and Cherokee; large, semi-double blooms of good substance with golden stamens. Flowers are carried on long stems. Foliage is abundant, delightfully fragrant, of a bronze green color and is immune to mildew.

NEW ROSES—OF RECENT INTRODUCTION

Each \$1.00

Irish Fire Flame (Alex Dickson, 1913)—One of Alex Dickson's single roses that is a good forcer. It makes beautiful buds that remain in shape a long time, having great substance. It comes with long stems, and with its unique color, it forms a combination that at once places it in the front rank of forcing roses. The color is old gold or coppery-yellow, flamed with ruddy crimson. Certainly a most glorious rose.

Lady Dunleath (Alex Dickson, 1913)—A rose with long pointed chaste petals, an intermingling of deep ivory, creamy-white, with egg-yolk yellow zoned petals of extreme beauty. Intense but delicate and delicious Persian tea fragrance. Especially valuable for garden decoration, being marvelously free and continuous blooming.

Lady Mary Ward (McGredy, 1913)—Color, rich orange, shaded deeper apricot-orange, with a decided metallic veneering; a most remarkable variety, and the greatest novelty in color yet seen in roses.

NEW ROSES—Continued

Mabel Drew (Alex Dickson, 1911)—A truly magnificent rose, superb in every respect. The blooms are large and full, carried on strong and erect flower stalks; the color is deep cream on first opening, passing to intense canary-yellow in center as the bloom develops; has the delicious refreshing perfume of the Tea roses.

Majestic (Paul & Son, 1914)—Fine carmine rose; a long and full bud, opening to very large flowers; of strong, erect growth; an excellent rose for bedding and for cutting. Gold medal N. R. S. Mr. Roger Murphey, the eminent rosarian, says: "Majestic is the finest of all the new roses I have seen for the years 1914 or 1915."

Marcella (Paul & Son, 1913)—Buds buff, opening up into a magnificent flower of salmon-flesh. Extra large, well filled and very handsome; of strong, erect growth, free and continuous blooming. Fine garden rose.

Marquis de Sinety (Pernet Ducher, 1906)—Not a new rose, but one that will never be plentiful for the reason that it is difficult to propagate, but is a vigorous grower after once being rooted. Color, golden-yellow, shaded bronzy-red. Large, full and very fine. A great favorite on the Pacific Coast.

Mi-Lady (Pierson, 1913)—A cross between "Richmond" and "J. B. Clark." Color is similar to "Richmond." Large, well-formed flowers, carried on stiff, erect stems. Very fragrant and a fine keeper. Has jumped into popularity as a forcing rose, but is, we think, more suited as a garden rose.

Mrs. Charles E. Pierson (McGredy, 1913)—A glorious orange-yellow flushed and tinted with red, apricot and fawn, sweetly scented; a glorious rose. Gold medal National Rose Society.

Mrs. Charles Hunter (W. Paul, 1912)—A strong, vigorous grower, with rosy-crimson flowers, changing to a pleasing rose as they fully expand. A very bold flower, with large, handsome petals, produced on strong, upright stalks.

Mrs. Aaron Ward (Pernet Ducher, 1907)—This rose is a real joy to the grower and absolutely distinct. One of the most delightful roses of recent years in a color that catches the eye at once. Coppery-orange in the open bud, golden-orange when partly developed, pinkish fawn of lovely shade when fully open, when it looks like a full fluffy-silk rosette. Color effect of the whole flower is Indian yellow.

Nerissa (W. Paul, 1912)—This rose was given an award of merit from the Royal Horticultural Society of England. Why they did not give it a gold medal is beyond our ken. An enormously large, full flower of fine shape.

Old Gold (McGredy, 1913)—Vivid reddish-orange with rich coppery-red and apricot shadings; a continuous free bloomer, mildew proof. Very sweetly fragrant.

Queen Mary (Alex Dickson, 1913)—A uniquely beautiful rose which enthuses the hearts of all who see it and ever holds them in its lovely sway. Its pure rich colorings, which are zoned deep, bright canary-yellow, on plenteous well shaped petals which are crayoned with pure deep carmine.

NEW ROSES—Continued

Sunburst (Pernet Ducher, 1912)—This magnificent giant yellow rose is a fine forcer; it stands head and shoulders above all others of its color and will rank with American Beauty and the Killarneys in value and grandeur. It has long, pointed buds, which can be cut tight for market. The color is orange-copper or golden-orange and golden-yellow; edge of its petals lighter; all intense shades, extremely brilliant in effect.

TREE ROSES

Grafted or budded on strong standards four feet from the ground. We will endeavor to keep the following sorts on hand. These roses cannot be sent by parcel post. Each \$1.25.
